

Lesson Plan

Title _____

Unit _____ Grade level _____

Teacher _____

Suggested time _____

1. Anticipatory Set and Scaffolding

Note the quote, read-aloud, or other short activity that you will use to grab the students' attention.

Objectives

State learning objectives: "By the end of the lesson, students will be able to ...".

2. Presentation/Procedure

List the sequence of steps for the lesson.

3. Guided Practice

Describe the steps that the students and teacher will carry out together during the lesson to model the objective.

4. Check for Understanding

Do a quick and simple assessment to confirm student understanding. This could involve a question, a quick review, flashcards, sequence word cards, or use of a whiteboard.

5. Independent Practice

Have students work independently on a task in direct correlation with the objective. Differentiation of student work might be applicable here.

6. Assessment/Homework/Project

Assign work that will help students continue to master the objective and that is related to the in-class assignment for the day.

7. State Content Standards

Note the state standards that are addressed in the lesson.

8. Modifications/Special Needs/Technology

Note modifications, differentiation of instruction, technology needs, use of an aide, etc.
